PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Software Engineering undergraduate with hands-on experience building scalable web applications, responsive interfaces, and robust backend architectures. Proven proficiency specializing in Java (Spring Boot), React JS, PHP, and MySQL database optimization. Demonstrates deep competence in system design, RESTful API integration, and managing relational data integrity within collaborative team environments. Seeking an internship to contribute to innovative software solutions.

TECHNICAL SKILLS

Frontend Dev: React.js, JavaScript, HTML5, CSS3, Bootstrap
Backend & FW: Java, Spring Boot (MVC, Security, Batch), Node.js, PHP, RESTful APIs, System Design
Tools & DBs: MySQL, Database Schema Optimization, Git, GitHub, Postman, SDLC

PROFESSIONAL EXPERIENCE

DAMRO Group - Payroll Administrator Mar 2024 – Mar 2025

- Processed complex employee payroll and attendance architectures ensuring high corporate data accuracy.
- Generated analytical reports utilizing advanced Excel formulas and internal management information systems.
- Identified and resolved critical data inconsistencies to dramatically improve enterprise reporting reliability.
- Maintained highly confidential employee databases and supported the talent onboarding lifecycle.

SELECTED TECHNICAL PROJECTS

NextStep - Java, Spring Boot, React JS, MySQL [GitHub] Jan 2026

- Architected a scalable, responsive platform optimizing university logistics, shuttle tracking, and resource management.
- Designed secure RESTful APIs to maintain high-performance communication pipelines between client and server.
- Implemented a MySQL relational database to maintain student data and logistics with high persistence.

SpareHubLK - PHP, MySQL, HTML, CSS [GitHub] Oct 2025

- Developed and deployed a full-stack e-commerce platform bridging automotive suppliers with active vehicle owners.
- Built dynamic server-side scripts to drive user management modules, product listings, and high-speed search engines.
- Optimized database queries to ensure rapid data loading and a seamless, user-friendly client interface.

University Student Management System - PHP, MySQL [GitHub] Oct 2025

- Engineered a web-based administrative system automating core university registration and student record lifecycles.
- Executed secure, complete CRUD backend operations integrated with a relational MySQL database schema.

EDUCATION & CREDENTIALS

BSc (Hons) in Software Engineering (UG) - NSBM Green University Feb 2025 – Present

- Focusing on applications development, systems analysis, advanced data structures, and object-oriented programming.

GCE Advanced Level (Mathematics Stream) - Sanghabodhi College 2022

- Credentials: ICT (Result: C), Combined Mathematics (Result: S), Physics (Result: S).

CERTIFICATIONS

Python for Beginners - University of Moratuwa & DP Education Apr 2024

- Completed rigorous industry-standard algorithmic logic, data structures, and foundational syntax training.

Web Design for Beginners - University of Moratuwa & DP Education

- Completed foundational front-end interface training, structured layouts, responsive practices, and basic web architecture.
